A total number of 1.21 billion 12-digit [unique identification number Aadhaar](#) has been generated till June 16, 2018, [IT](#) and Law Minister [Ravi Shankar Prasad](#) said on Monday.

The Minister revealed these figures while giving a presentation of his ministry's achievement in the last four years.

Prasad said the growth in mobile phone manufacturing had increased substantially in India. There were around 120 mobile phones and accessories manufacturing units in India as of 2017-18. Total handsets manufactured every year was 225 million with a value of Rs 1.32 trillion during the same period.

While talking about Unified Mobile Application for New-age Governance (UMANG) app, the Minister said the app had seen over 6.4 million downloads so far.

UMANG is government's all-in-one single unified multi-channel, multi-platform and multi-service freeware mobile app for accessing over thousand central and state government services in multiple Indian languages over Android, iOS, Windows.

The Minister said even the use of DigiLocker has also gone up substantially. In 2017-18, 11.7 million registered users have uploaded 15.2 million documents.
